Job Title:

Frontend Developer

Job Description:

We are seeking a motivated and detail-oriented Frontend Developer to join our team.
The ideal candidate will be responsible for building user-friendly web interfaces, ensuring responsive design,
and collaborating with backend developers to deliver high-quality applications.

Key Responsibilities:

- Develop and maintain web pages using HTML, CSS, and JavaScript
- Implement responsive and cross-browser compatible designs
- Collaborate with designers and backend developers for seamless integration
- Optimize web applications for speed and performance
- Test and debug issues to ensure smooth user experience

Basic Requirements:

- Proficiency in HTML, CSS, and JavaScript
- Familiarity with modern frontend frameworks (React, Angular, or Vue.js)
- Understanding of responsive web design
- Basic knowledge of version control (Git)
- Good problem-solving and communication skills

Preferred Qualifications (Optional):

- Experience with REST APIs
- Familiarity with UI/UX principles
